

## EXPERIENCES ON IMPLEMENTATION OF ECOSYSTEM-BASED APPROACHES TO CLIMATE CHANGE MITIGATION

1 December 2015

16:45-18:00

Rio Conventions Pavilion (Générations Climat)

The side event will highlight the potential of ecosystem-based approaches for climate change mitigation, including the multiple benefits that such approaches can provide. The side event will present some of the experiences and lessons learned from the implementation of ecosystem-based approaches for climate change mitigation in a range of biomes, and will discuss the opportunities for promoting synergies between policies addressing climate change and those addressing biodiversity.

### Programme

*Welcome and introduction*

Cordula Epple, UNEP-World Conservation Monitoring Centre

Dorothee Herr, IUCN

Marcel Silvius, Wetlands International

Vhalinavho Khavhagali, Department of Environmental Affairs, South Africa

Tim Christophersen, UNEP

*Facilitated dialogue between panelists and audience*
