

BANGA JANANEE

Gurudaspur, Natore, Post Code- 6440, Bangladesh.

Greetings from BANGA JANANEE- Chalanbeel, Bangladesh.

We are in Chalanbeel, consisting of 8 Upazila under 3 districts. Like other countries of the world, this year on 22 May 2009, we will celebrate the International Day for Biological Diversity through networking with a number of local NGOs as well as civil society members. As you know well, Chalanbeel was once famous for its historic natural diversity, but those days have gone. For many reasons, it has been damaged, as a result of a lot of negative impacts, and changes have occurred. This has greatly affected the life of both humans and animals in this area. In this context, especially while man made harmful disasters have jolted the entire environment of Chalanbeel, we find the need to undertake a joint initiative to make the local people aware, and to stimulate them to take timely action to save the Chalanbeel. With this objective in mind, we have taken up a small programme on that very significant day of international importance.
