

1.1 - Présentation général de votre pays en terme de biodiversité
Your country's presentation on the state of biodiversity overall

PAPUA NEW GUINEA

2.1- Quels sont les éléments majeurs de votre précédent SPANB?
What are the major elements of your previous NBSAP?

Goals of the NBSAP:

- Goal 1 To conserve, sustainably use, and manage the country's biological diversity
- Goal 2 To strengthen and promote institutional and human capacity building for biodiversity conservation, management and sustainable use
- Goal 3 To strengthen partnership and promote coordination for conserving biodiversity
- Goal 4 To strengthen existing protected areas and ensure that protected areas for terrestrial species and marine species are increased to 10% by 2010 and 2012 respectively
- Goal 5 Ensure a fair and equitable sharing of benefits arising out of genetic and ecosystem resources
- Goal 6 Promote and strengthen research of the country's biological diversity and the sustainable development of the country's biological resources

2.1- Quels sont les éléments majeurs de votre précédent SPANB?
What are the major elements of your previous NBSAP?

Programmes

- 1. Policy, Legislation and Administration
- 2. Financial and Technical Resource
- 3. Human Resources and Institutional Capacity Building
- 4. Benefit sharing
- 5. Research and Information on Biodiversity
- 6. In situ and ex situ Biodiversity Conservation
- 7. Measures of sustainability in Biodiversity use and incentives and alternatives
- 8. Education and Public Awareness
- 9. Monitoring, Evaluation and Adaptive Management of NBSAP

2.2 – Quelle est la méthodologie utilisée pour la mise en œuvre de votre précédent SPANB?

What is the methodology used for implementing your previous NBSAP?

- Nil methods used
- Activities implemented on adhoc through some government agencies & NGOs

2.3 – Quelles sont les leçons tirées de votre expérience avec le précédent SPANB?
What are the lessons learned from your previous NBSAP experience?

- Too many objectives & activities for implementation
 - *PNG has too many biodiversity related issues to attend to*
 - *However, NBSAP may have identified priority activities to be implemented with limited resources*
- Not mainstreamed into other sector plans/policies
 - *The Government need to endorse the NBSAP at the highest level*

3.1- Comment vous prévoyez la révision de votre SPANB?

What are your plans for the revision of your NBSAP?

- Review NBSAP with the development of protected area policy and review of protected area legislation
 - *With implementation of GEF4 Projects*

3.2 – Citez les différentes étapes du processus de révision.
Outline the different stages of your revision process.

3.3 – Quelles sont les opportunités offert par le nouveau SPANB?

What are the benefits of the new NBSAP?

3.4 – Quelles sont les contraintes? What are the constraints?

4.1 – Conclusions.

Way Forward

- Request Support from Regional Agencies (SPREP etc.) & CBD Secretariat on the review of NBSAP
