### **A. Website Maintenance and Development:**

- (a) With more than 800 web posting requests, there has been a constant effort to maintain the website up-to-date, particularly in relation with the beginning of the International Year of Biodiversity.
- (b) Functional specifications have been prepared for the development of the CHM knowledge base, with an emphasis on the development of a powerful user-friendly search engine, and enhanced sharing of information and knowledge.
- (c) Given limited IT resources and expertise to implement the CHM knowledge base, an agreement was concluded to develop IT synergies between the CHM and the Biosafety Clearing-House (BCH), indicating that the BCH Computer Information System Officer would act as the lead IT Architect supervising web developers, similarly to established IT industry practices. This arrangement is a major step forward in strengthening the CBD Secretariat web development capacity. Thanks to the support from the Spanish Government, implementation of the CHM knowledge base has started through this arrangement.
- (d) In the context of the knowledge management initiative, a website audit has been carried out. A report has been prepared with specific recommendations to harmonize menus and content. Next steps will consist in implementing these changes, in collaboration with programme officers and their assistants.
- (e) A design proposal has been made to modernize the home page of the CBD website and align it again to current standards. Implementation will proceed as soon as design proposals are approved.
- (f) An effort has been made to improve the management of database and website translation. In collaboration with the Biosafety Clearing-House, a pilot system has been deployed to enable translation requests to be exported to a standard format (XLIFF) compatible with professional translation tools.

### **B. Support to National Clearing-House Mechanisms & Partner Initiatives**

- (a) A virtual Skype conference was held on 26 January 2010 with some members of the Informal Advisory committee (CHM IAC). Discussion topics included document preparation for COP 10, integration of the CHM in the next strategic plan, and operations of the CHM IAC.
- (b) Questionnaires have been sent to CHM National Focal Points to compile information on CHM implementation at the national level. This information will be used to prepare the CHM progress report to COP 10.
- (c) A sub-regional workshop on CHM implementation in African partner countries was jointly organized by the Governments of Côte d'Ivoire and Belgium. It took place in Grand-Bassam, Côte d'Ivoire, on 9-11 February 2010 and was attended by around 20 participants (mostly CHM NFPs and/or website managers) including representatives from the COMIFAC and the CBD Secretariat. Activities included sharing experiences, assessing progress, making recommendations to promote the IYB and improve national CHM websites, and training on new features of the European CHM portal toolkit.
- (d) The CBD Secretariat was represented in the Working Group Meeting of the MEA Information and Knowledge Management Initiative organized by UNEP/DELCO, and held in Geneva on 3-4 February 2010. The main objective was to determine how to exchange key information

between MEAs and analyze specific information types (decisions, meetings) for the implementation of a proof-of-concept project. Technical discussions have also taken place about UNEP's project to build an MEA-wide analytical index.
