

Please provide the following details on the origin of this report.

Contracting Party:	Argentina
<i>National Focal Point</i>	
Full name of the institution:	Universidad de Buenos Aires, Facultad de Cs. Exactas y Naturales. Depto. Biodiversidad y Biología Experimental
Name and title of contact officer:	Dra. Cristina Maggese, Director del DBBE
Mailing address:	Depto. Biodiversidad y Biología Experimental. Facultad de Cs. Exactas y Naturales. Ciudad Universitaria, Pab. II, 4° Piso, Buenos Aires, Argentina.
Telephone:	5411-45763300 Int.
Fax:	5411-45763384
E-mail:	maggese@bg.fcen.uba.ar
<i>Contact officer for this report (if different)</i>	
Name and title of contact officer:	Dra. Visitación Conforti
Mailing address:	Depto. Biodiversidad y Biología Experimental. Facultad de Cs. Exactas y Naturales. Ciudad Universitaria, Pab. II, 4° Piso, Buenos Aires, Argentina.
Telephone:	5411-45763300 Int.
Fax:	5411-45763384
E-mail:	conforti@bg.fcen.uba.ar
<i>Submission</i>	
Signature of officer responsible for submitting national report:	
Date of submission:	

Please provide summary information on the process by which this report has been prepared, including information on the types of stakeholders who have been actively involved in its preparation and on material which was used as a basis for the report.

This is the first contribution of our country to the Programme of work for the Global taxonomy initiative.

We are compiling information about the state of taxonomic knowledge and needs in Argentina. For the moment the dispersal information is the principal difficult to identify which is the more important taxonomic impediment in our country.

Different institution has been contacted to survey the taxonomic projects in course. With this information we will have a data base about the taxonomic groups under study and institution with taxonomic focus.

**REPORT ON IMPLEMENTATION OF PROGRAMME OF WORK FOR THE
GLOBAL TAXONOMY INITIATIVE**

**Programme of Work for the Global Taxonomy Initiative
Annex to Decision VI/8**

Operational Objective 1. Assess taxonomic needs and capacities at national, regional and global levels for the implementation of the Convention

1. Has your country undertaken any taxonomic needs assessments and identified priorities in this regard?	
a) no (please specify the reasons)	
b) no, but assessment is under way	x
c) yes, some needs assessments made (please provide details)	
d) yes, comprehensive assessments made (please provide details)	
Further comments on country-based taxonomic needs assessments and identification of priorities	
We are beginning to compile the information Knowledge and needs taxonomic in Argentina.	
2. Has your country worked with other countries in the region to undertake regional taxonomic needs assessments and identify priorities in this regard?	
a) no (please specify the reasons)	
b) no, but some collaborative projects are being considered or planned	x
c) yes, some activities undertaken (please provide details)	
d) yes, many activities undertaken (please provide details)	
Further comments on regional taxonomic needs assessment and identification of priorities	
Some collaborative projects are in course in a few taxonomic groups.	
3. Is your country involved in any activities as part of a global taxonomic needs assessment?	
a) no	
b) yes (please provide details)	x
Further comments on the involvement in the activities for the global taxonomic needs assessment	
Our country participate of GBIF: Global Biodiversity information system PROBIOTA: Program to the study and sustentable development of the austral biota BIONET intenational: The global network for taxonomy IABIN: The Inter-American Biodiversity Information Network	

4. Is your country undertaking any activities of public education and awareness to promote the implementation of the programme of work for the GTI?	
a) no	
b) yes, some programmes developed and some activities undertaken (please provide details)	x
c) yes, comprehensive programmes developed and many activities undertaken (please provide details)	
Further comments on public education and awareness programmes and activities	
<p>Some activities has been development in this sense:</p> <ul style="list-style-type: none"> - Taller Nacional sobre Estrategia Nacional de Biodiversidad, proyecto Argentina/96/G31. Buenos Aires, 30/3 al 2/4/1998. -Primera Reunión de Trabajo. Red Nacional de Colecciones. Buenos Aires, septiembre del 2004. -Primer Congreso Nacional de la conservación de la Biodiversidad. Buenos Aires, noviembre del 2004. 	

Operational objective 2. Provide focus to help build and maintain the systems and infrastructure needed to obtain, collate and curate the biological specimens that are the basis for taxonomic knowledge

5. Is your country working to strengthen global and regional capacity building to support access to and generation of taxonomic information ¹ ?	
a) no (please specify the reasons)	
b) no, but some programmes under development	
c) yes, limited capacity building (please provide details)	x
d) yes, significant capacity building (please provide details)	
Further comments on global and regional capacity building to support access to and generation of taxonomic information	
The more important activity in this sense is the RNC (Red Nacional de Colecciones). It compile the information about Argentinean collections of organisms.	
6. Is your country working with other countries to create and/or strengthen the networks for regional cooperation in taxonomy?	
a) no	
b) no, but consultation is under way	x
c) no, but some plans and programmes are under development	
d) yes, some activities undertaken for this purpose (please provide details)	
e) yes, comprehensive activities undertaken for this purpose (please provide details)	
Further comments on strengthening of existing networks for regional cooperation in taxonomy	
As we mentioned, our country is member of IABIN.	

¹ Responses to question 5 are expected to focus on, but not limited to (a) human capacity building; (b) infrastructure capacity building.

Operational objective 3. Facilitate an improved and effective infrastructure/system for access to taxonomic information, with priority on ensuring that countries of origin gain access to information concerning elements of their biodiversity

7. Is your country involved in the development of a coordinated global taxonomy information system, in particular the infrastructure to access digitized data/information?	
a) no	
b) no, but some plans are being considered	
c) yes, to a limited extent (please provide details)	x
d) yes, to a significant extent (please provide details)	
Further comments on involvement in the development of a coordinated global taxonomy information system	
<p>We have two system that collaborate with the access to the information:</p> <ul style="list-style-type: none"> - The RNC, that is beginning to compile on line data base. - RETINA: is a theleinformatic academic red. It facility the academic communications <p>On the other hand for some taxonomic groups exist checklist on line.</p>	

Operational objective 4. Within the major thematic work programmes of the Convention include key taxonomic objectives to generate information needed for decision-making in conservation and sustainable use of biological diversity and its components

8. Has your country made any taxonomic studies and inventories at the national level, which provide a basic assessment of forest biological diversity, in particular in areas under current threat for habitat conversion, or of high conservation value?	
a) no (please provide the reasons)	
b) no, but some programmes are under development	x
c) yes, some studies and inventories made (please provide details)	
d) yes, comprehensive studies and inventories made (please provide details)	
Further comments on taxonomic studies and inventories made for a basic assessment of forest biological diversity	
There are some projects in course studying a few taxonomic groups in forest ecosystem. But we don't have comprehensive information about its.	
9. Has your country undertaken any taxonomy-related activities relating to marine and coastal biodiversity, in particular taxonomic work related to identification of ballast water organisms and monitoring health of mangrove systems through their invertebrate fauna?	
a) no	
b) not applicable	
c) no, but some programmes are under development	
d) yes, some activities undertaken (please provide details)	x
e) yes, many measures undertaken (please provide details)	
Further comments on taxonomy-related activities identified in the programme of work on marine and coastal biodiversity	

<p>Several institutions develop taxonomic-related activities relating to marine and coastal biodiversity.</p> <ul style="list-style-type: none"> -CENPAT: Centro de Investigaciones Patagónicas, -Dpto de Biodiversidad y Biología experimental, FCEyN, UBA -Universidad Nacional de Mar del Plata -CADIC, CONICET, Tierra del Fuego. - Instituto de Biología Marina, Mar del Plata -IADO, Bahía Blanca - Universidad Nacional del Sur, Bahía Blanca - Universidad Nacional San Juan Bosco, Chubut. - Instituto Argentino Antártico. - FIBA, CONICET, Mar del Plata <p>We are continuous compiling information.</p>	
<p>10. Has your country developed taxonomic support for implementing relevant actions identified in the programme of work on dry and sub-humid lands biodiversity, in particular identification of key indicator taxa like lichens?</p>	
a) no (please provide reasons and plans for improvement)	
b) not applicable	
c) no, but some programmes are under development	x
d) yes, some activities undertaken (please provide details)	
e) yes, many activities undertaken (please provide details)	
<p>Further comments on taxonomic support for implementing the programme of work on dry and sub-humid lands biodiversity</p>	
<p>Several institutions develop taxonomic-related activities relating to dry and sub-humid lands biodiversity.</p> <ul style="list-style-type: none"> -IADIZA, CONICET, Mendoza -Universidad Nacional de San Luis -Universidad Nacional de Córdoba <p>We are continuous compiling information.</p>	
<p>11. Has your country developed taxonomic support for implementing relevant actions identified in the programme of work on inland waters biodiversity, in particular regional guides to freshwater fish and invertebrates as an input to ecosystem monitoring for river and lake health?</p>	
a) no	
b) no, but some programmes are under development	x
c) yes, some activities undertaken (please provide details)	
d) yes, many activities undertaken (please provide details)	
<p>Further comments on taxonomic support for the implementation of the programme of work on inland waters biodiversity</p>	
<p>Our country is development a program to identify RAMSAR site, with the objective to study and protect it.</p> <p>On the other hand several institutions develop taxonomic-related activities relating inland waters biodiversity.</p> <p>Dpto. de Biodiversidad y Biología experimental, FCEyN, UBA</p> <p>We are continuous compiling information.</p>	

12. Has your country undertaken any taxonomy-related activities identified in the programme of work on agricultural biodiversity as well as relevant activities identified in the International Pollinator Initiative and the International Soil Biodiversity Initiative?	
a) no	
b) no, but some activities are being planned	x
c) yes, some activities undertaken (please provide details)	
d) yes, comprehensive activities undertaken (please provide details)	
Further comments on taxonomy-related activities for the implementation of the programme of work on agricultural biodiversity	
13. Is your country developing any taxonomic support for the implementation of the programme of work on mountain biodiversity, in particular identification of biodiversity components unique to mountain ecosystems?	
a) no	
b) no, but some programmes are under development	x
c) yes, limited support (please provide details)	
d) yes, significant support (please provide details)	
Further comments on taxonomic support for the implementation of the programme of work on mountain biodiversity	
14. Has your country developed taxonomic support for the implementation of the programme of work on protected areas?	
a) no	
b) no, but some programmes are under development	x
c) yes, some programmes in place and are being implemented (please provide details)	
d) yes, comprehensive programmes are being implemented (please provide details)	
Further comments on taxonomic support provided to the implementation of the programme of work on protected areas	

Operational objective 5. Within the work on cross-cutting issues of the Convention include key taxonomic objectives to generate information needed for decision-making in conservation and sustainable use of biological diversity and its components

15. Has your country taken any measures to strengthen capacity for the inventory and classification of biodiversity and its components in the development of a national strategy on access and benefit-sharing?	
a) no	x
b) no, but some programmes are under development	
c) yes, some measures taken (please provide details)	
d) yes, comprehensive measures taken (please provide details)	
Further comments on the measures to strengthen capacity for the inventory and classification of biodiversity and its components in the development of a national strategy on access and benefit-sharing	
16. Has your country developed taxonomic support to address the issues of invasive alien species?	
a) no	
b) no, but relevant policy and programme under development	
c) yes, some policies and programmes in place (please provide details)	x
d) yes, comprehensive policies and programmes in place (please provide details)	
Further comments on taxonomic support to address the issues of invasive alien species	
Our country participate of INBIAR: a project of IABIN, about the data base of Biological invasions on Argentina.	
17. Has your country developed taxonomic information system to support the maintenance, preservation and protection of traditional knowledge, innovations and practices of indigenous and local communities in accordance with Article 8(j) and related provisions?	
a) no	
b) not applicable	
c) no, but some programmes are under development	
d) yes, some activities undertaken but a system is not in place yet (please provide details)	x
e) yes, a taxonomic information system in place (please provide details)	
Further comments on the taxonomic information system to support the maintenance, preservation and protection of traditional knowledge, innovations and practices of indigenous and local communities	
Recently has been created XXX Reservas de la Biosfera in.....	
18. Has your country undertaken any taxonomy-related activities that support the implementation of the ecosystem approach and the work in the field of assessments, monitoring and indicators?	

a) no	x
b) no, but some programmes are under development	
c) yes, some programmes in place (please provide details)	
d) yes, comprehensive programmes in place (please provide details)	
Further comments on programmes and activities to support the implementation of the ecosystem approach and the work in the field of assessments, monitoring and indicators	

If your country wishes to provide additional information on implementation of this programme of work, please do so in the following space
