Liceo Taller San Miguel Pereira-Colombia

The General Assembly of the United Nations designated the year 2014 as the International Year of Small developing island states. The Liceo Taller San Miguel Pereira, Colombia, joined in the celebration with an art exhibition by our school students to show the world the marine life that exists in the islands and archipelagos of San Andres and Providencia in Colombia. This exhibition is a tribute to the richness of our Colombian seas as a call for their protection and conservation. Here are some pictures of the children creating their amazing sea-themed exhibits.
