

Throughout 2010 MEDASSET will give a series of talks regarding biodiversity to groups of employees of large corporation throughout Greece. We will also continue to carry out our already existing programmes and campaigns:

The scientific research programme “Monitoring and Conservation of Important Sea Turtle Feeding Grounds in the Patok Area of Albania, 2008-2011”: Satellite tracking, DNA analysis, Monitoring sea turtle populations and behavior.

The Creative Learning and Awareness Raising Programme for the Environment “Niretta the Caretta”

The Small Garbage Campaign, about the effects of small garbage to the Mediterranean marine environment and species

We will also continue to monitor the situation of nesting and foraging areas of sea turtles all over the Mediterranean and report to the EU.
